PROJECT SUMMARY

Improved utilisation of essential health services by women of childbearing age, adolescent girls, newborns and children under 5 living in poverty, with strong institutional strengthening of health workers and systems.

KEY INTERVENTIONS & DELIVERABLES

- Essential health services for women, adolescent girls, newborns and children under 5.
- Health worker and health system strengthening.
- 770 women Community-Based Health Volunteers counselling families on MNCH and SRH, referring and following up cases.
- Community MNCH and family planning data sent to the State Ministry of Health through LGA health directorates.

HEADLINE IMPACT

770 women CBHVs active in seven Sokoto LGAs; improved use of essential maternal and child health services.
