PROJECT SUMMARY

Supports quality Family Life HIV Education and Education for Health and Wellbeing that empowers adolescents and young people with skills to prevent HIV, reduce unintended pregnancies and eliminate gender-based violence in schools.

KEY INTERVENTIONS & DELIVERABLES

- Train 2,000 teachers from at least 450 primary and secondary schools on FLHE/EHW.
- Train 120 community, religious and traditional leaders on SGBV, early pregnancy, child marriage and reintegration of teenage mothers.
- Train 20 peer educators per school in 30 schools and 30 health providers in adolescent reproductive health.
- Support 10 teenage mothers and dropout girls back to school; develop IEC materials and digital engagements.

HEADLINE IMPACT

2,000 teachers across 450+ schools and 600 peer educators targeted.
